

## Vase (Meiping)

### Date

960-1127 CE

### Medium

Glazed and carved ceramic

### Description

This Cizhou ware vase was made using a process called sgraffito. The vessel is first shaped and given a white slip before being covered with a dark liquid glaze. Once the glaze has dried, it is carved to create a design using the white slip beneath. Only then is the vessel fired in a kiln. This style was principally made during the Northern Song and Jin dynasties.

### Dimensions

15 1/2 in. (39.4 cm)
