

## Pubic Cover

### Date

mid 20th Century

### Medium

Shell and fiber

### Description

This shell pubic cover was collected from the Fly River Delta in the Western Province of Papua New Guinea. The object dates back to the mid-20th century. The cover is made from thick white shell worked into a triangular-like form with three round edges. The top is perforated at either corner to allow the attachment of the fiber strand.

### Dimensions

11 1/4 × 5 × 1 5/8 in. (28.6 × 12.7 × 4.1 cm)
