## Canoe Bailer

**Date**  
20th Century

**Primary Maker**  
Massim

**Medium**  
Wood

### Description

Canoe bailers are used to remove water that canoes take at sea. As with all other elements of kula canoes, bailers are carved with complex, meaningful designs.

### Dimensions

4 × 5 1/2 × 16 in. (10.2 × 14 × 40.6 cm)
